

Vandeville acts turned a simple activity such as paper-folding and tearing into a performance art form. On these pages, we've provided you with your own chance to let rip!

PAPER VIEW 1 ▶

A square piece of paper is folded in half and half again as shown on the right.

Differently shaped holes are cut through the folded piece as shown in the examples below.

When the pieces are unfolded, select the correct pattern obtained from the four given colored alternatives.

◀ **PAPER VIEW 2**

This time a rectangular piece of paper is folded, as shown on the left.

Again, differently shaped holes are cut through the folded piece as shown in the examples.

The pieces are then unfolded. Can you select the correct pattern obtained from the three given colored alternatives?
